

Mobile SafeLink Horizontal Lifeline

A great product Just got better

Introducing our upgraded **STOPLINK BRAKE V2** with new
color-coded **TENSION INDICATOR**

PRODUCT ENHANCEMENT STOPLINK BRAKE V2

Item #019-8044

Our new Safewaze StopLink Brake V2, the inline energy absorber for our Mobile SafeLink Horizontal Lifeline System, drastically reduces force loads applied to the anchor point, while providing low minimum clearance heights.

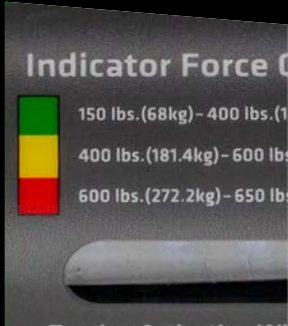

- Exclusive design
- Aluminum housing
- Integrated tension indicator
- Tuned tension spring
- Ultra-high molecular weight webbing
- Stainless steel connectors
- Includes 1 steel carabiner
- For use with:
FS-EX10000 & FS-EX10500

NEW ACCESSORY TENSION INDICATOR

Item #019-8031

With a color-coded tension activation window, our new Safewaze Tension Indicator quickly checks that proper force has been applied before use – saving time versus the traditional sag tensioning method.

For use with most cable and rope HLLs.
