

BeamLink

Structural Beam Attachment

NO MORE DRILLING!

SafetyLink's new BeamLink is the latest addition to the range providing you with easy installation and peace of mind when it comes to installing on structural beams. The BeamLink can be used as a single point anchor or used with either of our FrogLine or X-Rail systems.

- » No drilling required.
- » Fits to 150mm, 250mm or 300mm structural beams.
- » Can be used on flanged beams or columns.
- » The BeamLink is compliant with AS/NZS 5532:2013, EN795 Type A:2012 and ANSI Z359.18:2017.

Safewaze will provide you with the following:

- All products tested and manufactured to the current Standards.
- All distributors and installers are trained to use SafetyLink products.
- Supply installation guides, testing results and product sheets.
- Layout Design Service providing compliant roof safety systems.
- Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- Installers are qualified to do yearly inspections on your anchors as per the current Standards.

'Innovative Fall Protection'
