Easily adjustable step promotes better circulation

Length adjusts while fallen worker is suspended, allowing ideal positioning to relieve pressure and improve blood flow

- **ADAPTABLE LENGTH**  
Versatility to fit workers of all heights
- **QUICK-ADJUST RELIEF**  
Provides comfort and safety while suspended
- **DURABLE CONSTRUCTION**  
Engineered to work when you need it
- **EASY TO INSTALL**  
Attaches securely to harness in seconds
- **SIMPLE TO USE**  
Open, pull, hook, step in and adjust

Rubberized pack for extreme all-weather protection

Corrosion resistant materials prevent dangerous rusting

Low profile design ensures freedom to work normally

# PACKED WITH PREMIUM FEATURES

Securely attaches in seconds with Velcro to torso webbing on most harnesses

022-6047

QUICK-ADJUST TRAUMA RELIEF

## SUSPENSION TRAUMA:

A worker can suffer the effects of suspension trauma after a fall in as little as 10 minutes, leading to long lasting injury or death.

Rescue plans save lives. Relief steps provide essential time until a proper plan can be promptly enacted.

After rescue, never place a fallen worker in a horizontal position – place the rescued worker in a seated position with knees pressed to chest (known as “W” position) for at least 30 minutes.

## SPECS

Pack Dimensions: 2.75" x 1.5" x 3.0"  
 Deployed and connected length: 7.8' (2.4 m)  
 Weight: 0.5 lbs. (0.2 kg)  
 Minimum Breaking Strength: Up to 600 lbs. (272 kg)  
 ANSI Weight Capacity: 130-310 lbs. (59-141 kg)  
 OSHA Weight Capacity: Up to 420 lbs. (191 kg)
